SUPPLEMENT TO
REPORT NO.

SOURCE

1. All owners of vineyards have been ordered to pay for the food for all workers employed by them for the past five years. Some vineyard owners who have made this payment have now been ordered to make further payments to the same workers.
2. Vineyard owners have been ordered to furnish to the State 250 kilograms of corn for each five hectares of vineyard. Those who did not plant corn along the sides or between the rows of vines have likewise been ordered to deliver similar amounts. Some owners have purchased corn at 35 lei per kilogram, only to have it turned down by the authorities as not sufficiently dry. Such corn was then accepted on payment of 10 lei per kilogram by the vineyard owners.
3. In certain areas the owners have been required to furnish sleeping facilities for workers in the vineyards. In the Focsani, Dragasani, Galati and Iasi areas owners have been obliged to prepare sleeping facilities for workers who do not sleep in the vineyard but return to their own homes.
